Catchy Little Subtitle Here

EBOOK TEMPLATE

Congratulations! Your Rights Text Can Go In This Area

Place in this area the rights your customers will have to your information product. Let them know right up front if this is a **Personal Use Only** product, a **Standard Resale Rights** Licensed product, or a **Private Label Rights** Licensed product. They will appreciate knowing what can and cannot be done with your product :-).

Legal Disclaimers: In this area, place any legal information regarding your information product. This is useful to protect yourself, and your customers from any legal recourse from misuse. It is even more important to include a legal disclaimer if you are conveying content that has to do with earnings or earning potential. Be sure to include this, no matter how small or simple.

About The Author or Brief Introduction

This is the area where your “about this ebook” information goes. You can add a small explanation of what is covered, or you can add a brief introduction about yourself in this area.

It's all up to you how to best get your readers ready for your information product.

Here is some more filler text that you can replace with your own. You can make this introduction as “brief” or as long as you require depending on the complexity of your content. This text simply fills up space so you have a better idea of what your ebook might look once you delete this filler text and add your own original content inside.

Again, this is simply more filler text that can be removed by highlighting and deleting. Then just add your own contents here. More filler text has been placed here. And some more right here.

Table of Contents

[Chapter 1 Title Here](#) 4

You can also add a small chapter description here or, it can be a few subtitles that are found within the chapter contents added.

[Chapter 2 Title Here](#) 5

You can also add a small chapter description here or, it can be a few subtitles that are found within the chapter contents added.

[Chapter 3 Title Here](#) 6

You can also add a small chapter description here or, it can be a few subtitles that are found within the chapter contents added.

Ebook Templates dot Net

Chapter 1 Title

Here, you will have your main chapter text. To change this filler text to your original ebook content, simply left click, hold it down, and highlight over the entirety of this text.

Once you have the text highlighted, simply hit your “Delete” key on your keyboard. Then, using the same process as explained above, from a separate text document, copy your original ebook text and then “paste” it inside this area.

As there are absolutely **NO TABLES** within this EZ Ebook Template, you don't have to worry about any extra formatting, or adding the content directly inside of a table for it to look right.

You may have to add a few “carriage returns”, or, hitting the “Enter” key a few times, in order for your text to not “run” over top of the background header area.

It is a very simply process to get your ebook looking just as you would like it.

Another quick thing to mention is there are varying “margins” within this EZ Ebook Template.

The reason for this is so that when you write down your words, they will not overlap over top of the upper right hand corner graphic.

In the next example chapter, I'll cover how you can change those easily enough to make things fit for your unique ebook contents.

So, I hope you are reading through this and not just deleting it, 'cuz it's important!!

Chapter 3 Title

This is the last sample filler text chapter for this ebook template. Feel free to add your own chapters on to these three examples provided inside the template.

I do hope you have enjoyed reading this information, and that you get some really fresh use out of this ebook template included inside EZ Ebook Templates Package #5.
