Nice Little Subtitle Can Go Here For Your Ebook

Brief Introduction

This is the area where your “about this ebook” information goes. You can add a small explanation of what is covered, or you can add a brief introduction about yourself in this area.

It's all up to you how to best get your readers ready for your information product.

Here is some more filler text that you can replace with your own. You can make this introduction as “brief” or as long as you require depending on the complexity of your content. This text simply fills up space so you have a better idea of what your ebook might look once you delete this filler text and add your own original content inside.

Again, this is simply more filler text that can be removed by highlighting and deleting. Then just add your own contents here. More filler text has been placed here. And some more right here.

Nice Little Subtitle Can Go Here For Your Ebook

Chapter 1 Title Here

Here, you will have your main chapter text. To change this filler text to your original ebook content, simply left click, hold it down, and highlight over the entirety of this text.

Once you have the text highlighted, simply hit your “Delete” key on your keyboard. Then, using the same process as explained above, from a separate text document, copy your original ebook text and then “paste” it inside this area.

As there are absolutely **NO TABLES** within this EZ Ebook Template, you don't have to worry about any extra formatting, or adding the content directly inside of a table for it to look right.

You may have to add a few “carriage returns”, or, hitting the “Enter” key a few times, in order for your text to not “run” over top of the background header area.

It is a very simply process to get your ebook looking just as you would like it.

There is one last thing to mention with this template. And that is. . . .

To Change The Text You See In The Background That Says “Sample Ebook Title”, you will need to use Photoshop 7 or higher, or a graphics editing program that allows you to make changes to a .psd file.

Sample Ebook Title

Nice Little Subtitle Can Go Here For Your Ebook

Once you have the “Sunrise” .psd file opened up, simply select the “Sample Ebook Title” text layer from your “layers palette” by left clicking it and be sure you select the “Text” tool, and change the text.

You could also simply left click the “Text” tool to select it, then move your mouse right over the “Sample Ebook Title” text and left click to activate the “Text” tool.

Then, simply change the “Sample Ebook Title” text to whatever you want it to say.

If this is too complicated for you to understand with just plain old words, then I suggest you go to my free site: <http://ezebooktemplates.com/tutorials> and take a look at the free tutorials listed there. They may help.
